PROFESSIONAL SUMMARY

I'm a self-taught Front-End Developer with a sharp eye for clean design and an obsession with turning ideas into smooth, responsive, and user-friendly interfaces. I specialize in building fast, accessible, and visually compelling websites using HTML5, CSS3, JavaScript, and frameworks like React.

WORK EXPERIENCE

FRONT END DEVELOPER

IT Training Nepal

As a Front-End Developer, I build responsive, interactive, and user-friendly interfaces using HTML, CSS, JavaScript, and React. I turn design mockups into functional, dynamic websites that work seamlessly across all devices. With a focus on clean code, performance, and usability, I'm always exploring modern tools and frameworks to elevate the user experience and keep my skills sharp.

- Designed and developed fully responsive portfolio website: dipeshrai48.com.np
- Built multiple project pages with clean layout and optimized code structure.
- Integrated web hosting & domain registration setup using cPanel and free hosting services.
- Created reusable components using HTML, CSS, and JavaScript for faster workflow.
